Flatow AdvisoryPartners (FAP) demerges business division for institutional investors and announces mezzanine fund

Berlin, 4 September 2017. Flatow AdvisoryPartners GmbH (FAP), the leading independent consultancy for the procurement and structuring of capital for real estate investments, is demerging its business division for institutional investors as a separate company. As of August 2017, FAP Invest GmbH offers institutional investors advice on and access to attractive real estate debt investments as well as direct investments.

“Particularly in view of the sustained low interest rate environment, property remains highly attractive to institutional investors as a direct investment or in the form of real estate debt investments. That is why we are committed to investigating attractive proposals for our clients and developing new products with partners,” says Curth-C-Flatow, founder of FAP.

In the fourth quarter of this year, FAP will be launching a Luxembourg real estate debt fund. As initiators and investment advisors, FAP Invest GmbH has instructed a Service KVG in Luxembourg to launch the mezzanine fund and will provide access to institutional investors via its own platform. An initial sub-fund will focus on the allocation of subordinated capital for German real estate and development projects.

FAP Invest will act on behalf of institutional investors (e.g. insurance companies, pension schemes, pension funds, investment management companies and foundations), bringing these together with investors and developers. Consequently, the offering has been customised for direct real estate investments and will expand upon the opportunities currently available to institutional investors. Flatow AdvisoryPartners has advised on capital events totalling more than €14bn since 2005 and was recently crowned

"Property Debt Advisor of the Year" for 2016 at the PIE Europe Property Finance Awards. This market expertise constitutes the specialist know-how of FAP Investment Management.
